

Give students an understanding of symmetry by creating symmetrical art.

Materials Needed

1. Symmetrical Accent Cards:

- Large Accent Cards:
 - T-10009 Friendly Frogs
 - T-10053 Smiling Spider
 - T-10907 Star Smiles
 - CD-620039 Kids

- Mini Accent Cards:

- T-10504 Frog
- T-10562 Spider
- T-10801 Stars

2. Scissors

3. White paper

4. Glue stick

5. Crayons, coloured pencils or felt tip pens

1. Select Accent Cards that are symmetrical in design. Several different designs allow students a choice.
2. Cut the Accent Cards in half, so that each student will have at least one piece.
3. Allow students to choose their desired Accent Card.
4. Using a glue stick, glue the half accent to a piece of white paper. Glue the accent so there is room on the paper for drawing the missing part of the Accent.
5. Use similar colours to draw a symmetrical image of the accent to create a whole image.
6. Challenge students to use their creativity to enhance the rest of the page with more symmetrical designs.
